CHECK THE PRINT SIZE OF THIS BRACELET CHART

0 1 in

1. Check your print settings. Ensure the scaling is set to **100%** or '**NONE**'.

2. **Measure the bar to the left.** It must be exactly 1 inch. If this is not accurate - check your print settings and reprint this page.

1. Cut out the ruler on the left of this page or use a flexible measuring tape to find your bracelet size.

2. For bracelets and cuffs, take the measurement around your wrist bone. This is your wrist size. For bangles, pretend you are putting on a bangle by closing your fingers together. Wrap the measuring tape around your hand at the widest point.

3. Compare your measurement to the size charts, and choose the corresponding bracelet or bangle size.

4. If you are between two sizes, we recommend that you select the smaller size for cuffs and the larger size for bangles or other any other bracelet styles.
